Steve-

Meeting at 3 pm will work for me. At the intersection in Gladstone. That way I can drive down Weds am. 3 hours sleep last night.....

Yes, Gladstone works fine. Let's plan on 1 PM or later. Just let me know.

By the way, the Animas R in Durango looks fine, our sampling teams are observing many small fish alive and well. Reportedly, CO parks n fish (DOW) posted a Utube video showing the caged fish after 4 days in the Animas all doing fine.

Steve-

I got back at 2:30 am. When on Weds can we meet to look at the site and brainstorm? If we can meet in Gladstone and then drive up in your vehicle, this would save me from having to drive the pickup down.
